www.thediscoco.com

The Disco Co is a mobile disco, with a wealth of experience in providing businesses with an unforgettable night for your graduation.

The latest sound system and brilliant lighting effects combine with great music to create the perfect atmosphere for you and your guests to enjoy yourselves.

We are extremely experienced at providing a very high quality, highly enjoyable corporate entertainment, and we guarantee to get almost everyone dancing.

Making sure that your event is a success

This may sound obvious, but every event is different, with different guests. It is more than just having the right music, it is about reading the audience and understanding what is needed, and when.

A great light show

Again, every event and venue is different, and it is important that the disco lighting provides a great experience for your guests. With a large range of lights and special effects, and the experience to use them effectively, the event is enhanced. Lighting should be used to match the music, mood and tempo of the event.

The lighting and effects used are programmed to work together and are the same as you will find in many night clubs. A quality lighting set up makes for an impressive experience; one to be remembered.

Getting the volume right

We have a fantastic set of very high quality speakers with built in dual amps. The sound quality is superb, and really sets The Disco Co apart.

Getting the volume right is important so that everybody has a good time, not just those on the dance floor. We understand that you are not at a nightclub, that you don't want to be deafened but that those dancing do want to enjoy themselves. You don't need to worry, because we are able to judge this correctly and avoid complaints! If on the evening you consider it to be too loud, simply ask for the volume to be reduced.

Requests

It is important that the majority of guest at the event hear the music they most enjoy. We always offer requests, particularly for those present at the event, as it is important that the everyone feels part of the event.

Microphone

The majority of guests want music to dance to, and don't generally want to listen to a DJ commentary, so they are kept to a minimum. The exception to this is during party games, when it can be almost the opposite on occasion!

Reliable professional service

We are always smartly dressed. The DJ stand/rig is compact and self contained and very professional. We are 100% reliable, and have never failed to provide a professional service.
